1. RIT-CSI Student Chapter and CSI Region V

Coding will assist students in preparing for and participating in various coding contests by providing an overview of programming abilities required for a technical profession in the IT sphere, as well as good preparation for other job options within the industry. The coding competition includes a wealth of tools, including connections to previous competitions to aid students in their practise and preparation. Periodically, live stream contests will be held, and prior contest issues will be thoroughly examined.

2 IEEE Student Chapter

"Personality is the pattern of distinctive thoughts, feelings, and behaviors that differentiates one person from another and remains through time," says the author. Students will participate in challenges such as coding, group discussions, event management, and demonstrating entrepreneurial abilities as an individual to impart public and societal duties.

3. Women in Engineering

“Personality is that pattern of characteristic thoughts, feelings, and behaviours that distinguishes one person from another and that persists over time”. In this regard Students will be involved in contests like Coding, Web design, Group Discussions, Event Management, Showcasing Entrepreneurship skills as an individual to impart Public as well as societal responsibilities.

INAUGURATION

IEEE COMPUTER SOCIETY RIT STUDENT CHAPTER

CHIEF GUEST

DR. VISHWAS LAKKUNDI
CHAIR, IEEE COMPUTER SOCIETY BANGALORE CHAPTER

The IEEE Computer Society is the premier source for information, inspiration, and collaboration in computer science and engineering. Connecting members worldwide, the Computer Society empowers the people who advance technology by delivering tools for individuals at all stages of their professional careers. IEEE Computer Society's trusted resources include international conferences, peer-reviewed publications, a robust digital library, globally recognized standards, and continuous learning opportunities. As the world's top member organization dedicated to computer science and technology, the IEEE Computer Society advances the theory, practice, and application of computer and information-processing science and technology, as well as the professional standing of its members.

5 VRGLINUG-Institute Society

A seminar or group of meetings and discussions in a particular field. Try to give awareness to new technology in the field of IT.

6. TEDx MSRIT

TEDx MSRIT is a collection of speakers who help to expand one's mind and instil virtues that can never be forgotten. Beyond the world's supply-demand mechanism, one must respect necessities while realising their significance, and therefore draw the thin line between being ambitious and desperate. Our well-known speaker lineup is a part of the community we're attempting to create. The speakers have made a significant contribution in terms of ideas that have changed their life for the better! Come see and be a part of the TEDx MSRIT family's first effort!

8. CodeMSRIT - Coding Club at MSRIT

Coding will help Students in Preparing and participating in Various Coding Contests with insight into a glimpse of programming skills needed for a technical career at IT domain, which is also excellent preparation for other employment opportunities across the industry. The Coding contest involves great resources, including links to past contests to help students practice and prepare. Periodically a Livestream contests will be held and also previous contest problems are discussed in detail.

9. Developer Students Clubs (DSC)

Developer Student Clubs (DSC) is community groups for students from any academic background in their undergraduate or graduate term. By joining a DSC, students build their professional and personal network, get access to Google developer resources, and work together to build solutions for local problems in a peer-to-peer learning environment
