Come Together ! Speak Together !

May 2022 Vol 06 Issue 06

Our honorable Chairman Dr.MR Jayaram was felicitated with an Honorary Doctorate from the University of Illinois, Chicago, USA on May 6<sup>th</sup>, 2022. Dr. Timothy Killeen presented the Degree of 'Doctor of Humane Letters' to Dr.MR Jayaram in the recognition of his valuable contribution towards developing internationally acclaimed educational standards and health care services. The ceremony was witnessed by his family members, eminent leaders and academicians across the globe.

On behalf of Engineering and General Science (E & GS) members, we congratulate Sir and would continue to work under his able guidance through his vision and leadership. It is a very special and prestigious moment for the Ramaiah Group of Institutions.

## Message from the Chief Editor's Desk

*It is a matter of pride that the Newsletter "Abhijna Darpana" is being brought out by the GEF(E&GS) consistently.*

*In releasing the Sixth Edition, I have great satisfaction in noting that the quality, richness of the News letter and distinctive feature of novelty is maintained.*

*The Faculty, Staff and Students of our Institutions have the potential to bring out their intellectual and artistic talents. This Newsletter provides the platform and opportunities for the same.*

*We have gone through an era of unprecedented tough times due to the pandemic, where consistent online classes might have been depressing both for the teachers and the students. In spite of it, our Faculty, Staff and Students have spent positive moments in finding expression for creative work and giving vent to their hidden talents.*

*I appreciate the unstinted efforts of the Editorial team in bringing out this issue of the Newsletter in time amidst other academic responsibilities. I am happy to note that this issue helps students to know about the founder Chairman Dr. M.S. Ramaiah in the year of his birth centenary.*

*On behalf of the E & GS Division, I place on record my gratitude to our beloved Chairman and other members of the GEF for their constant support in all endeavours.*

**B S Ramaprasad, IAS (Retd.)**  
Chief Executive, GEF (E & GS)

**A Fond and Honored Centennial  
Remembrance to Karmayogi  
Dr M S Ramaiah 100<sup>th</sup> Year Celebration  
1922 - 2022**

With years of success stories, a personality full of compassion in serving society, and a pioneer in devising several water plans, Dr M S Ramaiah, completes his centennial year in 2022. A visionary and a philanthropist from his early days, Dr Mathikere Sampige Ramaiah built a society of hope to millions. His indelible ventures in establishing educational institutions, sanatoriums (health care centres), and watercourse projects are immeasurable to appreciate.

Born at Madhugiri in Tumkur District of Karnataka in 1922, Dr M S Ramaiah is a multifaceted industrialist. His immense success in the field of civil works was marked by the construction, some of the major projects in the state; canals of Ghataparbha, Talekalale, Linganamakki, Malagi, Dharma project, and also hydro project at Sharavathy. His sophisticated establishments like M S Ramaiah Institute of Technology in 1962, M S Ramaiah Medical College in 1979, and M S Ramaiah Medical Teaching Hospital in 1985 which are known globally set benchmarks to his career. He is a founder of more than 20 gigantic educational institutions in Bengaluru scripts his enterprising plans as an entrepreneur. These institutions are touching the millions of students and developing their intellect with commitment towards society. A benevolent in erecting many non-profit homes for the needy, Dr M S Ramaiah has been an instrument in modelling the nation. Dr M S Ramaiah is a true inspiration to countless generations.

RIT

## Award and Achievements

RIM received the Best Curriculum Design Adaptation award by Education Today.

Dr. Manasa Nagabhushanam, Director (Academics, Research & Administration) received the women achievers award by FOWE in their women's day celebrations at FKCCI.

We are happy to share that Dr. Nagarathna A, Principal, Ramaiah College of Arts, Science and Commerce has been honoured with 'Principal of the Year 2021' award for her outstanding and exemplary contribution towards Education, Skill Development and Research on 7<sup>th</sup> September 2021 during 15<sup>th</sup> Rashtriya Shiksha Gaurav Puraskar Ceremony 2021.

## Republic Day Camp 2022 and CM Commendation Card award received by JUO Shreeyaa Raj D.

JUO Shreeyaa Raj D of II year B.A., LL.B., RCL successfully completed the Annual NCC Republic Day Camp 2022 at New Delhi held from 18 December 2021 to 29 January 2022. She represented the Karnataka and Goa Directorate in the Culturals and Prime Minister's Rally. She was also a part of the Flag Area competition and the line area briefer for the Karnataka and Goa Directorate.

She was awarded the Chief Minister's Commendation Card on March 13, 2022 by DDG of Karnataka and Goa Directorate Air Commodore B.S. Kanwar on behalf of Hon'ble Chief Minister Basavaraj Bommai, for being a part of the Republic Day Contingent, exemplary performance and contribution in NCC.

## DG NCC Medallion received by JUO Afreen Khan

JUO Afreen Khan of III Year B.A., LL.B., RCL was awarded the DG NCC Medallion by the DG NCC Lt Gen Gurbirpal Singh AVSM, VSM, for her exemplary performance and contribution in NCC on February 25, 2022.

## CM Commendation Card award received by L/Cpl Malika Garg

L/Cpl Malika Garg of II Year B.A., LL.B., RCL was awarded the Chief Minister's Commendation Card on March 13, 2022 by DDG of Karnataka and Goa Directorate Air Commodore B.S. Kanwar on behalf of Hon'ble Chief Minister Basavaraj Bommai, for her exemplary performance and contribution in NCC.

## Law of Attraction

In the legal sense, law is a system of rules created and enforced through social or governmental institutions to regulate behaviour. We have come across various laws in our lifetime. Laws prohibiting or discouraging a certain type of behaviour, laws meant to protect us and ensure us a life of dignified existence, laws meant to resolve issues currently faced by the society etc. There is a different type of law which entirely differs from our understanding of the word law, i.e the law of attraction.

Law of attraction is one of the 12 universal laws and is closely related to manifesting .The law of attraction is based on the principle that we have control over our reality and what happens to us. The law of attraction is a philosophy that claims one's thoughts determine their reality. Law of attraction says that positive thoughts attract positive outcomes and negative thoughts would indefinitely result in negative outcomes. It is based on the belief that thoughts are a form of energy and that positive energy attracts success in all areas of life, including health, finances, and relationships. The

law of attraction claims that we are all made up of energy therefore our thoughts are also energy. so positive thoughts radiate positive energy therefore attracting positive outcomes in our life , whereas negative thoughts radiate negative energy therefore attracting negative outcomes in our life . The law believes that our thoughts are extremely powerful and have a major role to play in what happens to us in our physical reality .

Simply put, it's because like attracts like. If you are feeling excited, enthusiastic, passionate, happy, joyful, appreciative, or abundant, then you are sending out positive energy to the universe. In turn, that positive energy will attract people, resources, and opportunities that resonate on the same energetic wavelength. On the other hand, if you are feeling bored, anxious, stressed out, angry, resentful, or sad, you are sending out negative energy. That negative energy will repel positivity and attract pessimistic people and events into your life. So the law encourages us to change our outlook and the way we view and interpret things in the most

positive sense .There are various ways through which we can practice the law of attraction like meditation , journaling, scripting ,visualization , saying positive affirmations etc .

I realize that being positive all the time isn't possible because not everything is in our control and if you have come on this earth you are bound to go through ups and downs, highs and lows in life . but the law of attraction encourages us to be positive in such situations and have patience and most importantly have gratitude for the various blessings we have received in life .

To sum up everything that has been stated so far our world is a projection from within, it is our consciousness objectified. It is the most dominant state materialized in physical form. It means that we have created our reality in our image through our feelings and beliefs, our happiness, love, joy , peace and all else in life is our own responsibility .

**Shivangi Saxena,**  
II Year B.B.A LL.B., RCL

## Education

As is flesh and skin for the skeleton,  
 As is mother to the child,  
 As is trust to the friends' bond,  
 So is education the most important guide.  
 It doesn't compare between the Ivy League graduate,  
 And the little play school at the corner of your lane,  
 It gives to all and receives from those,  
 Who convey their gratitude after all they gain.  
 Education is like that self-sacrificing mother,  
 Who caresses her baby affectionately,  
 Who loves him unconditionally without any expectations,  
 But that of acknowledgment unquestionably.  
 It gives the meaning of chronicles and histories,  
 But also of mannerisms and relevance of life,  
 Education isn't just algorithms and equations,  
 But also a solved puzzle to the maze of our strife.  
 Education will help you decipher a parable,  
 It'll help you name constellations that are otherwise just stars,  
 "Education is important", a simple saying,  
 But has anyone told you it can take you to Mars.

Ermina Afroz, II BA, RCASC

Lalithambikai M, V Sem, E&C, Ramaiah Polytechnic

## When Prized Possessions Gain Immortality

One of the side effects of the pandemic has been that every one, at sometime or other, has 'cleaned' their house. Looking at all the stuff they have collected they have asked almost innocently, 'How did we manage to collect so much?' Suitcases and cupboards full of clothes and other things that one had not even seen for the past few years but could still not be thrown away.

"Our desire to possess says a lot about us," says psychologist Bruce Hood. "We own so many things that often the garage is full of stuff while the car is standing in the driveway." Author of Possessed, a book about possession and the madness to do so, Hood says in an interview, "There is a little demon inside us that is compelling us to go for more and more things. Our need to have more than we actually require is born out of a desire to control."

It is true that when a child goes to the park with a ball of his own, he becomes the leader to those who have not brought their playing balls. So this desire for the power of control is born rather young. And then we have memories attached to that ball. We never throw it away. Does our self-esteem come from these past glories that we need to preserve them all?

Does our sense of identity suck in these material objects too?

Would we honour and give a longer life to our precious belongings, if we gave them away with joy in our hearts?

Roshan Sab, III Sem, E&C, Ramaiah Polytechnic

# A TRIBUTE TO OUR FOUNDER

## Dr. M.S. RAMAIAH

Industrious & enterprising, Dr. M.S. Ramaiah is among Karnataka's illustrious sons and an Engineering Contractor of national repute. He founded 'Gokula Education Foundation' in 1962. without expending any kind of assistance from the establishment with an objective of serving the society. Ramaiah Institute of Technology [RIT] was born under the aegis of this foundation in the same year, creating a landmark in technical education in India. Through the years RIT has imparted quality engineering education, accessible thousands from across India and abroad facing a lack of opportunity to pursue higher education.

Widely acknowledged as a Visionary, Philanthropist, educationist & industrialist Dr. MS Ramaiah personally ensured that the institution which began with just two disciplines, grew phenomenally over the years. In tune with the noble ambitions & aspirations of Dr. MS. Ramaiah to develop the institution so as to become a 'Trana Sagara'.

## TWO WORLD'S

In a world of botox and plastic surgeries, children are sleeping naked,  
wrapped in mud cold,

In a world where there are drug injections, lives are lost outside  
hospitals, untold,

In a world with expensive coffee shops and unemptied plates, people  
survive on leftover treats,

In a world with late-night Disco's, there is sound sleep, on noisy  
streets,

I wish there was a bridge, which could bring these worlds together,

And we could just realize, why we, are so different from the other,

The reason we have been given so much more than we need, and  
people are given so less, yet no greed,

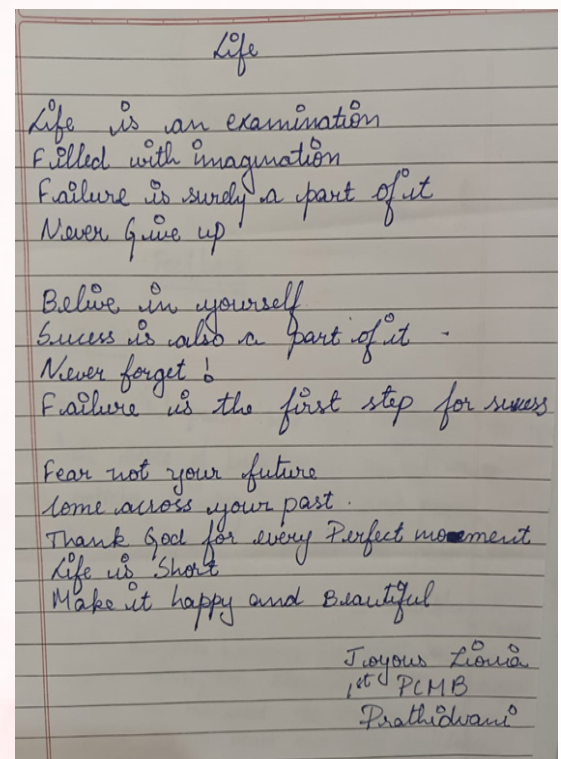

It is for the privileged to share, being wealthy to care,

For neither knew the other existed, and how kindness wasn't  
restricted,

The world could be a fairy tale, and we as humans wouldn't fail.....

Deepika Sharma, M.Tech, RIT

## Why is it so Expensive “BONSAI”

Bonsai is an art form that requires years of training and centuries of dedication. And so what is it which makes Bonsai so expensive?

Bonsai is the art of dwarfing a regular tree to create a perfect miniature representation of nature in a small pot. It has a long history originated in china as back as in the 16<sup>th</sup> century [Tang Dynasty 706 CE]. The tree's growth is restricted by years of pruning, wiring, reporting and grafting. The plants need to be checked on and often watered every day. Many of these techniques require years to master and any errors can ruin the shape or even killing the plant. CHIAKO YAMAMOTO is a 4<sup>th</sup> generation bonsai master from central Japan. She is been creating and selling Bonsai for the last 51 years and it is one of the hardest skills to master. The Plant live and face the sun on their own. Some of the most valuable Bonsai are over 800 years old. It takes 3 to 4 generations to create a Bonsai if it is seeded now. The Bonsai is taken care of hand made tools and even the tools cost around 1000 dollars. Certain trees need more attention and special techniques and may fetch a higher price to create a bonsai.

Gayathri Prakash V,  
Sem ADFT, Ramaiah Polytechnic

Sanu Mondal, X Std, RHS

## Failure – Life's Greatest Teacher

Success and Failure are like two faces of the coin, both are important in life to motivate an individual. It depends on, how an individual accepts this. Failure does not mean the end of life. It is the beginning of success. If we don't fail, we will not learn. If not learning, then we will never change. Failure is not rewarded in society and we hardly find failures documented in History. The exceptions are those that became stepping stones to later success. Many great personalities in almost all sectors have undergone failures in their life. They never gave up, instead, learned from their failures, mistakes and achieved success. A few failure stories which will really motivate us are

1. Albert Einstein failed in university entrance exam at the age of 17. If he had stepped down, he would not have become one of the most brilliant physicists in this world.
2. Charlie Chaplin's act was initially rejected by Hollywood chiefs. He did not give up. Later, his act, the character

became world-famous entertaining us.

3. Winston Churchill was defeated several times in the election for public office, finally became PM at the age of 62.

There are many such stories. We shouldn't read the success story of great people, instead of failures story, which will motivate us. Such failure happens in everyone's life. But we need to accept, learn, correct, should not stop, keep trying in all possible ways judiciously and face the realities of life.

"You never fail until you stop trying" - Albert Einstein. Yes, exactly, failure is a motivation. Failure doesn't mean, you have failed in life. It means a lot that, you have not yet succeeded. Thus, failure is not just the opposite of success; it's part of success.

Dr. Ambika M R, Assistant Professor, RIT

## Report on RAMAIAH JAPAN CENTRE (RJC) Formal Launch & Inauguration

The Ramaiah Japan Centre- 'Kizuna' was formally launched on 16th March 2022. A Mini-Japan set up at the Ramaiah Institute of Management was inaugurated. The centre had displays of Origami, Ikebana, Calligraphy and Tatami Japanese style mats. This was followed by a formal Ceremony where Dr. Manasa Nagabhushanam-Director (Academics, Research & Administration) welcomed everyone and highlighted the significance of opening of this Centre to steer International collaborations.

The keynote address was delivered by Ms. Akiko Sugita, Honorable Consul General of Japan in Bangalore, who spoke about the various collaborative initiatives between India and Japan and the opportunities available to students. The session witnessed address by eminent speakers- Mr. Yoshifumi Murakami-Senior Expert, Japan Foundation and

Advisor to Bangalore Teachers Association(BNK), Mr. Takashi Suzuki, Director General, Japan External Trade Organization, JETRO- Bangalore and Mr. P N Karanth, Honorary Secretary, Indo Japanese Chamber of Commerce and Industry-Karnataka.

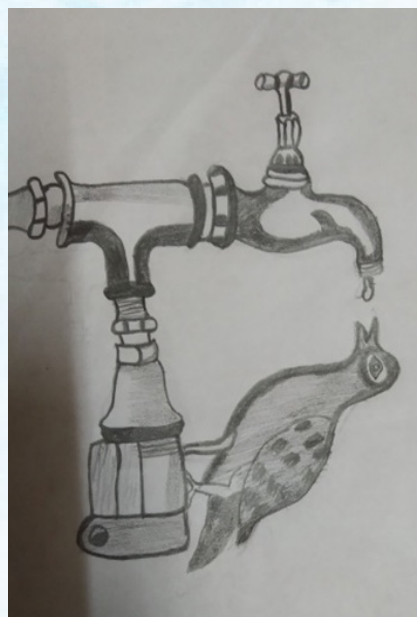

Mr Tomio Isogai, Freelance Advisor in Indo-Japanese Relations, Former Managing Director, Sharp India Ltd. & Advisor to Ramaiah Japan Centre made his presence virtually and spoke about the various opportunities. This was followed by a detailed report of the RJC's activities by Ms. Anjana K S-Head of the Ramaiah Japan Centre. Sri.B.S. Ramaprasad, Chief Executive (Engineering & General Sciences) delivered the presidential remarks and mentioned that this initiative should drive research, internship, career opportunities for students and faculty members of the Group campus going further.

The event concluded with the vote of thanks by Dr.V.Padmaja, Associate Professor-HoD- Dept. of HRM & Gen. Management. The event witnessed participation from Heads of Institutions of the Ramaiah Group, faculty and students of the Ramaiah Group campus. The session was streamed live on YouTube. Rema V- Asst. Professor, Dept. of Business Analytics was the Emcee for the event.

## RAMAIAH Toastmasters Club

### What is Ramaiah Toastmasters Club?

Ramaiah toastmasters Club is a club started in May, 2019 by a group of enthusiastic and involving 24 members consisting of Faculties and students of Ramaiah Group of Institutions

With the help of our Chief Executive and Chief Financial officer. Ramaiah Toastmasters club is an extension network of clubs with Toastmasters International which is a nonprofit Educational Organization that teaches public speaking and leadership skills. We officially chartered the club on the 31<sup>st</sup> of May, 2019. Our chartered president was Shri B.S Ramprasad, Chief executive of Gokula Education Foundation. For more information about Toastmasters International and about our club please visit [www.toastmasters.org](http://www.toastmasters.org) or meet us at LHC hall every Saturday from 1:30 pm onwards.

### What have we accomplished?

- We have successfully conducted over 100 meetings developing its members speaking and leadership skills

- Our members have achieved success in various other clubs by bagging in club level, area level public speaking, table topics and evaluation contest.
- We have achieved the title of President distinguish for 2 years in a row and on road for it to be a third time and a score of a perfect 10 once.
- We have active club coaches, leadership development programs, volunteers, Emparch 1.0, Youth and leadership programs.

- We have been awarded the fast five award twice, Four path breakers and have four triple crown award winners in our club
- We are the home of Area Director of Area A3 TM Ankita B M, an ex Student of Ramaiah College of Law.
- Have written and published Various newsletters of our club.
- We conducted Educational sessions With (Distinguished ToastMaster) DTM Deepak Justin, DTM Brad Smart, DTM Ushy Mohan Das, DTM Suchitra , DTM Narendran and many more Renowned speakers from around the globe.
- We conduct various contests such as "Kalam ki Kaala" (Cultural Event), Linkers meeting (meeting between two or more clubs), Open house debate contest.

### What is special about the Club?

We are not just any ordinary club, we are a group of individuals from different streams of interests who come together to broaden their horizons and network with everyone who is a part of Ramaiah group of Institutions and working professionals from various fields. We are not just bound to the 2 hour period of the meeting but post meeting interactions and gatherings that we take pride in. In the past years we have conducted unofficial events like.

- Book club
- Cosplay meeting
- Movie Nights
- Game Nights (among us, Antakshari)
- Treks
- Gathering for lunch etc.

So to put it into a nutshell, we are more than just club members, We are a group of friends like family who are brought together by the aim of being, 'Better Leader and Speakers'.

### Current status of our Club

- We are a Club currently with a strength of 33 members and growing.
- We conduct meetings every Saturday from 1:30 onwards at LHC and Zoom (Hybrid meetings)
- On our journey to celebrate 125th Meeting in the days to come
- Conducting Various Educational sessions from Speakers around the globe
- Our club is on the aim to achieve another Perfect 10 Score for this Year
- We are Conducting Membership drives in the coming months
- Installation Ceremony For the new Club Officers for the Club

- Planning for Events like Open house, cultural events, Emparch and workshops underway in the coming months.

### How can you join our Toastmasters Family?

We conduct meetings every Saturday from 2 pm onwards you can walk in at the stated time and join in the interactive sessions conducted by the club members.

To become a member you must be a part of Ramaiah Group of Institutions as a Staff, Teacher or Student.

If you aren't a part of Ramaiah you can join our meeting as a guest and also enquire for membership at neighboring clubs.

You can apply for membership when the membership is open by filling the forms and paying a membership fee of \$90 for one year or \$45 for 6 months with an additional of \$20 which is sponsored to every Individual joining by Ramaiah Group of institutions.

You can contact the current club members/officers or enquire at the Desk of Chief Executive Office

You can follow our instagram page [@ramaiah\\_toastmasters](https://www.instagram.com/ramaiah_toastmasters) for all updates and Enquiries.

### Our Club Officers for this Term

President: **TM Gautam Singh**

Vice President Education: **TM Freya Raichu Thomas**

Vice President Membership: **TM Shrujal Arcot**

Vice President Public Relations: **TM Arshad Khan**

Secretary: **TM Mithra**

Treasurer: **TM Megha Soneji**

Sargent at Arms: **TM Navya Rai**

Ramaiah Toastmasters Club thanks the support and love by the readers of Abhijna Darpana. We have received many responses/feedback from everyone. We really owe the survival of the club for three successful years and many more to come. Keep learning!

## FEEDBACK

Abhijna Darpana has helped me during the online classes to enhance my reading and has encouraged me to write. I whole-heartedly thank the Abhijna Darpana team.

**Ananya K, VIII Std, Ramaiah Vidyaniketan**

Abhijna Darpana is a good platform for exhibiting beautiful creative work of our school.

**Shamita, VI Std, Ramaiah Vidyaniketan**

The newsletter is very important for the students to display their creativity and talent. Thank you!

**Shameera, VI Std, Ramaiah Vidyaniketan**

Abhijna Darpana a Newsletter is providing an incredible chance to all staff and students of Ramaiah group of institutions to showcase their ability. This issue contained an assortment of articles, write-ups, thoughts, and innovativeness from the various fields. I wish to salute every one of your team for bringing a beautiful newsletter.

**Dr. NL Ramesh, HOD, Dept., of Mathematics, RIT**

The meaning of "Abhijna" is: "Knowing; remembrance; clever, skilful" and "Darpana" means "a mirror". In ancient times, highly polished metal plates of various designs were utilized to serve as mirrors. 'Abhijna Darpana', fusions and it reflects students' talent. A quarterly Newsletter poised to showcase the multifaceted talents of the students. I wish to read more! All the best team Abhijna Dharpana.

**Mr. Diwakar. P, Teaching Assistant,  
Dept., of Humanities, RIT**

Abhijna Darpana was very insightful to me. People from all state of background shared their talents via articles, drawings, essays and poem. I hope that this magazine continues its publication.

**Darshan. K, I PCMC, RCPUC**

Abhijna Darpana magazine is giving us a Platform to showcase our talents and not limiting us to the field of law but instead helps us expand our horizons and learn and read new things.

**Anukriti Rawat, III B.Com. LL.B., RCL**

MS Ramaiah's Abhijna Darpana has helped students a lot. It has helped them to showcase their creativity appreciate them and has motivated to improvise them. This has also helped us to boost our self confidence. As a part of my hobby, I use to draw, but never completed it, but participating in Abhijna Darpana, made me realize that my hobby could be improved and even could be taken up as my career, not now, but I will keep on improving my art and do the best. Thanks to Abhijna Darpana.

**Menaka Kumara Prajapast I, CSBA, RCPUC**

Abhijna Darpana provides informational content contributed by staff and students of Ramaiah Group of Institutes. It is a platform where creativity is showcased explicitly through poems, drawings, and much more. With excellent usage of vocabulary and words put in an orderly and beautiful manner, the newsletter draws the attention of the readers.

Looking forward to the next issue!

**Aishwarya. R, RIM**

A place filled with insights into various arenas. One of the good newsletters I have come across that is pertaining to campus as such. The capturing element of this newsletter is that it comes with a blend of various issues and topics in different languages as it sports the abilities of personnel and students of Ramaiah.

**Puneeth BV, PGDM, RIM**

Thankyou to the entire team of Ramaiah college for giving us an opportunity to present our hidden talents and knowledge into the newsletter. It is an proud feeling to see our articles in the newsletter. Thank you for giving a way for expressing our feelings and opinion.

**Kulsum Fathima, II Sem, RCE**

The magazine is a wonderful platform for us to showcase our talent. It helps us to improve ourselves and gives us the opportunity to read about new things in its every edition.

**Ruchi Agrawal, III B.B.A., LL.B., RCL**

This newsletter example is targeted to a specific audience looking for updates on the program upcoming events and classes and highlights from the past few months.

**Dharani, X, RHS**
